A Computer Science fresh graduate from the University of Riau with a GPA of 3.74, with a strong interest in system analysis, web development, and information technology. Experienced as a Web Developer Intern at Statistics Indonesia (BPS) Riau Province, contributing to the development of a web-based employee performance monitoring system using Laravel and MySQL. Experienced in analyzing system requirements, designing application workflows and relational databases, and developing web-based solutions through academic and personal projects. Strong analytical and problem-solving skills, with the ability to collaborate effectively in teams and adapt to new technologies.

Work Experiences

Badan Pusat Statistik (BPS) Provinsi Riau - Pekanbaru, Indonesia

Jan 2025 - Feb 2025

Internship - Web Developer

- Developed CAPKIN (Capaian Kinerja), a web-based performance monitoring application using Laravel, tailored to facilitate structured quarterly evaluation reporting for the agency.
- Designed and implemented a relational MySQL database capable of accommodating dynamic yearly indicators and a complex multi-tier approval workflow involving 5 distinct user roles.
- Collaborated within a team of four to analyze system requirements and map application workflows using Use Case diagrams, successfully delivering a fully functional local prototype.
- Built a comprehensive executive dashboard and an automated data export feature to assist leadership in monitoring progress and conducting data-driven performance evaluations

Education Level

Universitas Riau - Pekanbaru, Indonesia

Aug 2022 - Jun 2026

Bachelor of Computer Science, 3.74/4.00

- Activities: Actively involved in various activities and programs organized by HIMALKOM (Himpunan Mahasiswa Ilmu Komputer), University of Riau.
- Final Thesis: SARIMA Modeling for Forecasting Producer Prices of the Smallholder Plantation Subsector in Riau Province.

Organizational Experience

Himpunan Mahasiswa Ilmu Komputer UNRI - Pekanbaru, Indonesia

Jun 2023 - Dec 2023

Staff of IT Division

- Co-organized Rumpi IT 2023, a national seminar featuring PT PLN, focusing on the integration of computer science in Society 5.0.
- Facilitated Kelas Prestasi and served as Head of Committee for SKMN, promoting national competition opportunities and supporting student academic achievements.
- Developed a student achievement database for the Computer Science Department to support university accreditation requirements.

Projects

AMKAS – Point of Sale

- Developed Cashier-System, a web-based point-of-sale application using Laravel and MySQL to manage retail transactions for Toko Anugrah Mandiri.
- Configured automated CI/CD workflows using GitHub Actions to streamline application deployment and development workflows.
- Deployed the Laravel application to a Biznet VPS, gaining experience in server configuration and application deployment.

Parking Management System

- Developed a full-stack parking management system using React.js, Tailwind CSS, Laravel, and MySQL, with API integration between the frontend and backend.
- Implemented QR-based check-in/check-out, automated parking fee calculation, and role-based access control using Laravel Sanctum.
- Built an administrative dashboard with Recharts for data visualization and automated Excel/PDF reporting.

Time Series Forecasting Application – Final Thesis

- Developed a time series forecasting application using the SARIMA method to forecast producer prices of the smallholder plantation subsector.
- Performed data preprocessing, transformation, and differencing to prepare monthly time series data for modeling.
- Conducted model selection and forecasting evaluation using statistical criteria and forecasting performance metrics.

Skills

Technical Skills

- **Web Developments & Frameworks:** Laravel, Next.js, Tailwind CSS.
- **Database & API:** MySQL, Relational Database Design, API integration, Laravel Sanctum (Role-based access control).
- **System Analysis & Design:** System Requirements Analysis, Application Workflow Mapping, Use Case Diagrams.

SoftSkills

- Analytical and Problem-Solving.
- Teamwork and Collaboration.
- Adaptability to Technological Advancements.
- Project and Event Coordination.
